Thanks Emily, I agree. Might be a good idea to have our engineering lead for north portal, Kirk Wilcox, along as back-up in case of design detail questions that go beyond what I could cover. I have cc'd Kirk as an FYI and heads up.

This looks pretty heavy on SR 99/bored tunnel... not as much on Mercer St as I was expecting. Do you think we should bring another WSDOT person? Please let me know.

Thanks,
Emily

I forgot to attach the file.
Let's try again.

Thank you,

Good morning,

Attached please find the updated plan and itinerary for the Mercer/North portal tour for your review.

We may have to reduce the time at each location, since right now we are over 2 hours.

Please let me know your thoughts.

Thank you,

Sonia Palma
