Chad-

Looks good to me.  
Thanks,  
Alec

**Subject:** Draft bored tunnel map  
**Importance:** High

Attached is an updated bored tunnel map that shows a simplified configuration in the south end. The communications team would like to use this instead of the existing map (also attached) to illustrate the project to the public. Obviously it doesn't offer much detail, but the intent here is to eliminate some confusion by simply showing that drivers can connect to both Alaskan Way and the bored tunnel via SR 99. We could add ramps and additional detail as the design progresses, should that be desirable. Please let me know your thoughts on this as soon as possible, so we can begin incorporating the change into presentations and written materials. Thanks.

**Chad Schuster**
