Subject: RE: Central Waterfront Building Block Planning Level Estimates

Ranga,

Thank you. I am also interested in the breakdown for the bridge costs of the two bridge alternatives Scenario D (160' Aerial Alternative & E Integrated Elevated).

Regards,
Tim

Subject: Central Waterfront Building Block Planning Level Estimates

Tim,

As requested in our meeting Friday, 17 Oct, on the subject, attached is the 'Total Project Cost Summary Comparison' by Scenario for the SR99 Elements (including Seawall) of the AWVSRP.

Please note that the cost numbers are at planning level/ rough order of magnitude (ROM) estimates without overall contingency/ risk and escalation and are subject further review/ update etc.

Thanks and Best regards,

Ranga Pottabathni, PE
