Thanks for the heads up. I wouldn't put provide roadway sections for the transition section. I don't think they are necessary for this document unless HQ specifically requests it. Focus on the info for the CN CA.

Do you need my help with the proprietary items? I can do the cost estimate.

Lee,

I was making, adding more information, and cleaning up the drawings for the transition structure and wondered if headquarters wanted roadway sections for this documentation. Should I provide roadway sections for the transition section? Between this, the proprietary item cost estimate, and all the other tasks that I have been given from other people, I might not be able to finish these two tasks you gave me by Friday. I will see where I am tomorrow but I don't think the cost estimate for the proprietary items will be an easy task.

Joe

I have attached the minutes from the May 14, 2009 meeting for SR 99 Holgate to King, Stage 2 Design Documentation meeting.

Please let me know if you have any questions or comments.

Thank you,
