Subject: Transition Structure Documentation for the Construction Corridor Analysis
Attachments: Transition Structure Deviation Number Table (5-26-2009).xls; SOUTH END TRANSITION STRUCTURE (5-26-09).doc; Fig 3 - Alternative 1.pdf; Fig 4 - Alternative 2.pdf; Fig 5 - Preferred Alternative.pdf; Fig 6.pdf; Fig 7.pdf; Fig 8.pdf; Fig 9.pdf; Fig 10.pdf; Fig 11.pdf

Attached is what I have completed so far for the documentation for the Transition Structure as discussed earlier today. It still probably needs a fair amount of work but let me know if you have any comments or questions. The figures need to be cleaned up some.

John - whenever you get the chance I would like your input on the table and figures so that I don't misstate anything. Your over the shoulder review would be greatly appreciated if you have a moment to do so. Thanks
