**Subject:** AWV - South Project - City Deviations

As requested, the draft city deviations, prepared about a year ago, are located at the following fileservers location:

<\\Nwucwffile01\data\Viaduct\Engineering\South\Task Order SB\PC-34 Design Documentation\Work Products\I - Major Deviations\Surface Streets>

I had used a Word table that was provided by Mike Johnson. A few figures were also prepared - PDFs in the same fileservers folder & MicroStation files in ProjectWise. Regards,

**John D. Fenedick, P.E.**
