Subject: FW: AWW Program Permit Guidance
Follow Up Flag: Follow up
Flag Status: Purple

Please see AG guidance below regarding permits. As she states in her email, she will continue coordinating with Kimberly on this for the upcoming projects. However, if we're discussing permitting requirements in meetings with DPD and SDOT, we will reiterate the information below. It would be important to add that these issues are being coordinated with the AG's office and City attorneys on an ongoing basis.

I will make sure that Allison is in the loop whenever an agency is requesting these permits so that she can coordinate with the appropriate people if it becomes an issue.

Let me know if you have any questions,
Heather
