OK - here it is with our response to comments, rewrites and general cleanup. What it still needs from you guys is another look - for grammar and spelling - and anything that looks out of place. And of course final formatting. Lisa is working on reformatting Table 1 and will insert the cleaned up version. I'll be sending Figures 1 and 2 under a separate 3-mail. I still need to take a quick look at the process overview flow chart. So - we're almost there! Way to go team.

Sandy
