

VandenBerghe, Alissa (Consultant)

Subject: Bored Tunnel Construction Strategy Workshop
Location: 23rd Floor Training Rooms - AWW Office 999 Third Ave., 23rd Floor

Start: Mon 3/9/2009 8:00 AM
End: Mon 3/9/2009 5:00 PM
Show Time As: Tentative

Recurrence: (none)

Meeting Status: Not yet responded

The intent of this Alaskan Way Viaduct replacement workshop is to assess all relevant contracting and packaging strategies against key criteria and considerations, consider the pros and cons of different approaches, and narrow the range of alternatives for further consideration. The goal is to develop a well documented contract packaging recommendation to agency executives, which upon acceptance would ultimately form the basis for our tunnel implementation plan.

A draft agenda outline is attached, with a more detailed agenda to follow. Please consider this invitation an initial placeholder, as final decisions have yet to be made as to who will be the core team present for the entire workshop vs those who will only be required for specific days or agenda items. The detailed agenda to follow will also reflect the final decisions on independent experts. It is hoped that Dave Dye, Craig Stone and/or Ron Paananen will be present at the beginning for the introduction and at the end for the summary as their schedules permit.
