Subject: AWV Bored Tunnel EIS and Engineering Snapshot
Attachments: Conflict_of_Int_Ltr.pdf; WAC 196-27A-020.pdf

Good morning to all. We want to thank you for the professional services your firm has provided to the Alaskan Way Viaduct and Seawall Replacement Program over the years. As we begin the environmental impact statement and engineering snapshot for the bored tunnel, several firms asked us for clarification how to avoid potential conflicts of interest in pursuing any design/build aspect of tunnel construction. The attached letter is to serve as interim guidance as the WSDOT prepares clarified policy on this important matter.

Please do not hesitate to contact us if you have further questions or need additional clarification.

Theresa Greco
Deputy Director
Programs and Services
Alaskan Way Viaduct & Seawall Replacement Program
