Rick - I left a copy of the request from PB Americas and the rate letter on your chair for processing. This is ok to go forward as far as I am concerned. I didn't have these attachments electronically.

Thanks Theresa,

Separately, PB is submitting a request to add Mr. Skaer as a Subconsultant and his proposed rates sheet for approval (to be added to the Y-9715 Agreement). Upon receipt, I will see that it receives immediate attention.

Subject: Addition of Environmental Expertise

Good afternoon, Doyle. As you are aware, we have direction from Governor Gregoire to proceed with a bored tunnel to replace the aging Viaduct. She also directed us to deliver the project by 2015. Needless to say, we have to adjust our environmental strategies to successfully receive a Record of Decision by December 2010. We need to bring on additional environmental expertise, specifically with NEPA to help frame our environmental strategy. We directed Mike Rigsby to obtain this support as soon as possible and asked that Fred Skaer be added to the team to provide this immediate support to us. Fred formerly held the position of Environmental Compliance with FHWA in Washington, DC and will be a welcomed resource.

I appreciate your help in expediting the process to add Fred to the team.

Please let me know if you need additional information or clarification.

Take care.

Theresa Greco
