**Subject:** Draft text - Bored Tunnel compared to Big Dig

We're pulling together some information for a fact sheet that will explain the differences between the bored tunnel and the Big Dig. We have VERY draft text attached, and need to pull just a few bullets from it to put on a PowerPoint slide. Can you take a quick look this morning and send me your initial thoughts, and what red flags you may find in the attached? We're on a tight timeline to get a draft together -- if you could send me comments as soon as possible I would greatly appreciate it.

Thank you,  
Kristy
