Bob C. requested his meeting months ago and it has been rescheduled several times because it is not a priority for us and I wonder if it's really a priority for him. The topic first came up in an agreements meeting where Bob C. and Theresa were present, and I was tasked with setting it up, although - just to be clear - it has nothing to do with agreements. I believe the emphasis is on the central waterfront. The last time the meeting was canceled was right before the bored tunnel decision. Following the decision, I checked with Bob to see if rescheduling was still necessary, and he said that yes, he'd like to meet with you guys sometime in February.

I just need to ask this again, what is the focus of the discussion (other than 'art')? South End, whole program, etc. As far as 'art' beyond architectural treatments, I'm not sure what there is to discuss at this point in time...just curious what is driving this.
