I plan to have Rudy Lemus help me out by doing the drafts. I believe that he could have those to you by this afternoon sometime, but I will check with him.

Thanks.

Yes, I would be happy to help out with that. When will we be seeing a draft?

**Subject:** Revised Project Descriptions  
**Importance:** High

Matt, Alec, and Ali,

I just received a phone call from Glenn Davis at Goldsmith. The final thing needed to submit our budget / aging / funding plan to the Legislature is our revised project descriptions to reflect the single bored tunnel on the Central Waterfront, and other changes in delivery that we are contemplating (for example the reduced scope in the BST).

We can prepare forthcoming draft project descriptions, but could I ask that you review them and approve / comment so that we can provide our final descriptions to Glenn Davis by Wednesday close?

Thanks. Please let me know if this might be a problem.
