Alec,

I was just making a joke because it appears Powers has already made the decision for us.

I am pushing the report and it will be done as you requested.

Paul

Paul- Sorry to hear that you feel that way. I don't think it is a waste at all. I think that the jury is definitely out on the cross section and configuration of the roadway and your team needs to flesh out the issues and inform our management as to what you have found. Once again, it is not productive or useful to take direction from the news that you may read. Please stick to the assignment you were given and we'll go from there.

Matt- John indicated he needed a briefing on this prior to the next EOC meeting. Do you know the schedule for that so we will be ready at the right time? I discussed it with Rick Conte and our plan is that this will be a very rudimentary report, similar to the plans and matrices that you have seen on the north and south portals. Rick said he could pull that together by Friday or Monday.

Alec

Hi Alec,

Apparently we are wasting our time with the report. Powers has announced that the Western Elliott connection will be 2 lanes each direction with left turn lanes. See number 4 below.

Paul
