Subject: Concerns from Warren Aakervik

Just got off the phone with Warren Aakervik. He called Amy a couple days ago and Amy asked me to call him back. He wanted to know if the SAC will be reconvened. I told him there were no plans to meet again at this time. He thinks the committee should continue to meet regularly to discuss all the issues associated with the bored tunnel. He thinks it's the committee's job to help identify issues and resolve them. He wants to be able to ask the difficult questions to Dave, Grace and Harold. He said he's willing to accept the bored tunnel, but believes there is a lot to work out in order for it to work for the maritime industry. He wanted to know if he should call Dave and/or Jennifer Zeigler directly. I told him to let me pass on his concerns first. Does someone want to give Warren a call back?

Let me know how you'd like me to proceed, if at all.

Thanks,
KaDeena
