Kristy -

The slides do not have speakers assigned to them. Is that something you normally do on your end? I imagine Grace would like to kick it off because of her connection to WTS.

Thank you,  
Hannah

Attached is the draft WTS presentation for Thursday afternoon. For presenters, I have Harold, Grace and Ron Paananen.

Looks like a popular one -- below email went out on Thursday and we're already full, with the waiting list started! The meeting will be from

11:45 a.m. to 1 p.m., with about 30 minutes for the presentation, and the rest for Q&A. It will be held at SDOT, 38th floor.

Please send me any comments or edits on the presentation -- I'll get an updated version to you tomorrow or Wednesday.

Thanks,  
Kristy

Alaskan Way Viaduct and Seawall Replacement Program Update

Governor Gregoire, King County Executive Sims, and Seattle Mayor Nickels have announced their recommendation to replace the central waterfront portion of the Alaskan Way Viaduct and Seawall. The recommendation includes a 1.7 mile-long bored tunnel beneath downtown, a new waterfront surface street, transit investments, and downtown city street improvements. This solution will provide capacity for the future, improve access to and through downtown, and make Seattle's waterfront a world-class destination.

Come learn more about this exciting step for the city, region and state.
