Thanks Eric. Our comments focus on the transit maps.

- ST does not capitalize Link.
- RapidRide one word- both R's capitalized.
- West Seattle map- bottom right- Light Rail - Light is spelled wrong. we should also be consistent and say Link Light Rail.
- West Seattle map- should be centered further south. It focuses on the north end too much- with the Street Car and Link Light Rail. The focus for the West Seattle map should be RapidRide and the new Water Taxi service.
- It is difficult to see the Bored Tunnel alignment.
- Neighborhood name are good, but on the West Seattle map the names are on top of things. Could we add more neighborhoods like West Seattle, First Hill Capital Hill.

Can we use these to make Transit inserts to the brochure? Is this something the City is going to take the lead on? Who should we work with? We can help draft language.

Thanks! They look great.

Chris

Attached:

All maps that we have been working on for NW Seattle and West Seattle. The transit maps are still in the same format/content as previous versions. We're aware of King County's interests in modifying or adding to those maps, but have not gone there with these.

Hi Tracie -

Alec Williamson would like to look at the maps. I know they're not totally final, but could you send me PDFs of the latest and greatest and I'll forward to Alec?

Thanks!

Emily
