Amy, here is what I can get for you now. More in the morning if you need it. Also Gordon is checking the lane mile costs; some of my costs did not come out with the same answer.

Best regards,  
Harvey

Here is what I have as of 5:22 p.m. Mike Morrison is still working on the risk issue and I need to do some more work on the summary pieces, but it appears to be heading in the right direction. Comments by 9 a.m. would be much appreciated so we can run this by Dave tomorrow and get responses back to everyone who has asked questions of us.

Thanks  
AJG
