>Amy, I just received the following from Gordon re Lane Mile Costs

Changxing, China is now up to \$41 M per lane mile. Your "less than \$50" still seems ok. Westerschelde is still \$77 per lane mile (No change). Your "less than \$100 M" still seems ok Calle 30, Madrid is now \$177 per lane mile. Your "between 150 and \$200" seems ok Lefortova is now \$101 M per lane mile. Your \$200 is too high. Suggest a range or "over \$100 M per lane mile

Best regards,  
Harvey
