Subject: Bored Tunnel Design Scoping

I have attached a brainstorming chart that captures some of the topics and attempted to organize it a bit. Still needs lots of work. Comments welcome. I'll be working to set up meetings tomorrow for some of our initial teams and fleshing out a mission/charter for each of them.

BTW- so what's the new name for the program?

Alaskan Way Viaduct and Seawall Replacement just doesn't have the same ring as it used to!!! ;)

I spoke with Kristy about this and she said she would be chatting with Lloyd Brown soon about this and other items like this as we transition.

Alec Williamson, PE
