Subject: DSA Invite

Ron,

We'd like to put together a breakfast forum for our members on the morning (7:30 – 9:00 am) of March 20th in downtown Seattle to educate them on the bored tunnel/surface/transit proposal (specific location TBD).

I'll be inviting Grace and either Harold or Ron Posthuma as well. We're looking for a joint presentation focused on the project scope, timeline, surface configuration, connection issues at the north and south ends, etc.

Would this work with your schedule?

We may also invite one of the tunneling experts to share some information on tunnels around the world.

Thanks,
Jon
