Did I get a response to this? I couldn't find it if it was sent to me.
Can you find out where it is?
Craig

Subject: AWV Workforce Effects

As we talked about at Monday's Leadership Team meeting, we need a qualitative first cut at what the bored tunnel approach will mean to AWV/UCO's workforce needs that Ron and I can take to the 1/20 RA meeting. (We were a little in front on this...which is good...as Jerry called today asking that we bring what we know about this.)

By COB Monday - I know , I know Monday is a holiday - can I have a view that considers the new approach (e.g. D-B by 9/2010 with EIS work, preliminary design work/contract prep, r/w etc) and with the changes to planned work (South end, Battery St etc).

Thanks,
Craig
