**Cc:** Lenz, KaDeena (Consultant); Claus, Emily (Consultant)  
**Subject:** Central waterfront boards and folios  
**Attachments:** Final\_BoredTunnel\_folio\_Jan09.pdf; Final\_Central\_boards\_web\_Jan09.pdf; Medialimages.pdf

Attached are the final boards (already printed) and final folio (being printed tonight).

We also put together a CD of images for the media that include the boards, a high resolution version of a bored tunnel cross section and a waterfront visual, and a few examples of other bored tunnels around the world. I've compiled those into one PDF that is also attached.

Please let me know if you have any questions.

Thank you for all of your help today - see you tomorrow morning.

-Kristy
