Hey, that's great Kristy. Thanks for hunting this down, and if I have any follow-up questions I'll touch base.

Best,

Matt

Matt -

Thanks for your call the other day. I did a little hunting over here and was able to find the preliminary draft tolling analysis of Scenario F (twin bored tunnel) for the central waterfront. See attached.

Please let me know if you'd like to speak with any of the technical staff for more details, or if you need anything else.

Thanks,  
Kristy
