Just wanted to provide a status report on various activities. First, attached are a couple summary documents capturing initial thoughts on oversight and advisory structure. There is an accompanying list of candidates for roles on the technical and strategic advisory committees, we hope to have that to you tomorrow (John R is doing some final vetting).

We are working on a new boiler plate PPT, including some slides specific to leg hearing needs. I will call to discuss expectations to make sure we are aligned, so far we are keeping it lean and focused on messages from the folio along with some additional cost info and key points from the tunnel one pagers we are working on.

Speaking of those, the tunnel ones and most others are in motion, but needing more work still. Transportation performance remains a challenge, as we did not model a scenario that matches the current proposal, which begs getting modeling going at the front end of this effort, once we figure out the northend configuration.

Speaking of the northend, and other areas of City interest, we had an enlightening meeting with Chandler and Brown where they described their view of what is 'in' the EIS, and needless to say we aren't exactly on the same page. This should be item number 1 for next Monday's enviro strategy meeting.

Speaking of that meeting, we will have draft materials to you by COB Thurs, along with some key points from the City discussion. Well attended brown bag today, Linea and Bob made it and are now engaged in the 'what it will take' discussion. AGO discussion tomorrow.
