Assuming it's desired, we will work to finalize those tunnel one-pagers for this meeting (cut&cover, big dig, deep bore tunnels).

This is what we're thinking so far...let me know if you have other thoughts.

**Subject:** 2/5 Leg Briefing - Proposed Materials

Here is what I'm thinking for the Seattle delegation briefing on next Thursday evening:

Boards:

1. Board Tunnel Hybrid Alternative Map
2. Cost and Funding Table (from back and inside of folio)
3. Maps showing NW Seattle and West Seattle access into downtown Seattle

Information Packet

1. Board tunnel hybrid alternative folio
2. King County's MVET folio
3. I-5 Folio (Victoria - do we have anything ready?)
4. Big Dig fact sheet (Eric - do you think that will be ready?)
5. Comparison to cut-and-cover tunnel fact sheet (Eric - do you think that will be ready?)

The room is not set up to do a PowerPoint so we're thinking a brief presentation based on the boards and then Q&A.

What are we missing for information?
