Subject: Bored tunnel comments

Forgot to mention, I read Mike to riot act on the comments from the Gov's office, and told him that if it gets back to us with a specific name, I wouldn't want to be in their shoes. Mike was wondering if the confusion was over comments at the SAC meetings, where it was stated that the \$3.5B includes other system costs besides the bored tunnel itself. I said my understanding was that the comments were outside of that, but that I didn't know the details...he was going to look into it.
