Here are a few suggested edits, not a big deal if you don't want to include them. Also, is there any way to say how many deep bore tunnels are currently under construction around the world. I'm wondering about making the point that out of lots of tunnels, only two have had challenges.

I also can't remember who is on Willie's distribution list. But I want to be sure staff get the e-mail as well. So, Simpson, Redfield, Shepherd, Goff, Fleckenstein and Balasbas. Thanks.
